OUR PROCESS

HEALTHCARE FURNITURE SOLUTIONS

CLINICAL & SUPPORT SPACES FURNITURE

OUR MANUFACTURING PARTNER INTERNATIONAL & **CANADIAN** MANUFACTURER

Our **International** & **Canadian** manufacturing partners are established furniture manufacturers specializing in the Research development, Production and Supply of High-quality Educational, Commercial, Healthcare, Hospitality and Public-space furniture solutions.

INTERNATIONAL MANUFACTURING EXCELLENCE | Our international manufacturing partners bring decades of experience, advanced production capabilities and integrated systems to deliver large-scale projects with innovation, quality control and sustainable practices.

CANADIAN MANUFACTURING EXPERTISE | Our Canadian manufacturing partners are trusted for their commitment to quality, innovation and local craftsmanship, delivering premium furniture solutions tailored to the unique needs of Canadian businesses and institutions.

Our manufacturing campus includes dedicated production divisions for Metal Fabrication, Woodworking, Upholstery, Injection molding, Powder Coating, Foam molding and Final assembly operations. Through vertically integrated manufacturing processes, products are developed from raw material processing through to finished production under strict Quality Management standards.

By combining Advanced Manufacturing Technology, Ergonomic research, and Modern design principles, our manufacturing partners deliver durable, functional and Innovative furniture solutions designed to support learning Environments, Workplaces, Healthcare facilities and Collaborative public Spaces.

Together, TruNorth and our **International** & **Canadian** manufacturing partners provide scalable furniture solutions tailored to the needs of Educational Institutions, Commercial Projects, Public facilities and Institutional Environments across Canada.

Treatment Room Cabinets

TruNorth Learning Solutions Inc.

Treatment rooms require durable, easy-to-clean cabinetry that supports medication preparation, supply storage, and daily clinical workflows. These cabinet layouts can be configured around sinks, refrigeration, locked medication storage, work surfaces, and optional accessories such as syringe drawers, infusion hooks, and task lighting. Materials and finishes should support infection prevention practices, efficient organization, and long-term performance in high-use healthcare environments.

Soiled Utility Room Cabinets

Soiled utility rooms need clearly organized storage for waste handling, used linens, cleaning supplies, and handwashing support. Cabinetry should help separate waste streams, improve workflow, and keep surfaces easy to clean. Options such as sensor faucets, dedicated disposal areas, and closed storage can help reduce contact points and support infection-control practices in clinics, hospitals, and long-term care facilities.

Treatment & Dressing Room Cabinets

TruNorth Learning Solutions Inc.

Treatment and dressing rooms support wound care, dressing changes, and minor clinical procedures. Cabinetry should separate clean, semi-clean, and soiled zones, keep supplies visible and organized, and provide durable work surfaces for daily use. Clear storage locations and easy-to-clean finishes help staff maintain efficient, hygienic workflows.

Pharmacy Storage Planning

Configurable cabinet layouts help organize medications, supplies, and preparation areas for Canadian hospitals and clinics.

- Modular drawer and cabinet options
- Clear storage zones
- Durable healthcare surfaces
- Layouts tailored to staff workflow

Pharmacy cabinet systems provide organized storage for medications, supplies, and preparation materials. Configurations can be planned around dispensing, inventory control, clean work surfaces, and efficient staff movement throughout the department.

Staff Change Room Lockers

Staff change rooms require durable, easy-to-clean locker systems that keep personal items organized and support efficient daily routines. Cabinet and locker layouts can be planned around staff circulation, available floor space, and storage capacity while maintaining a professional appearance for clinics, hospitals, long-term care facilities, and healthcare offices.

Staff Change Room Lockers & Shoe Storage

Available colours

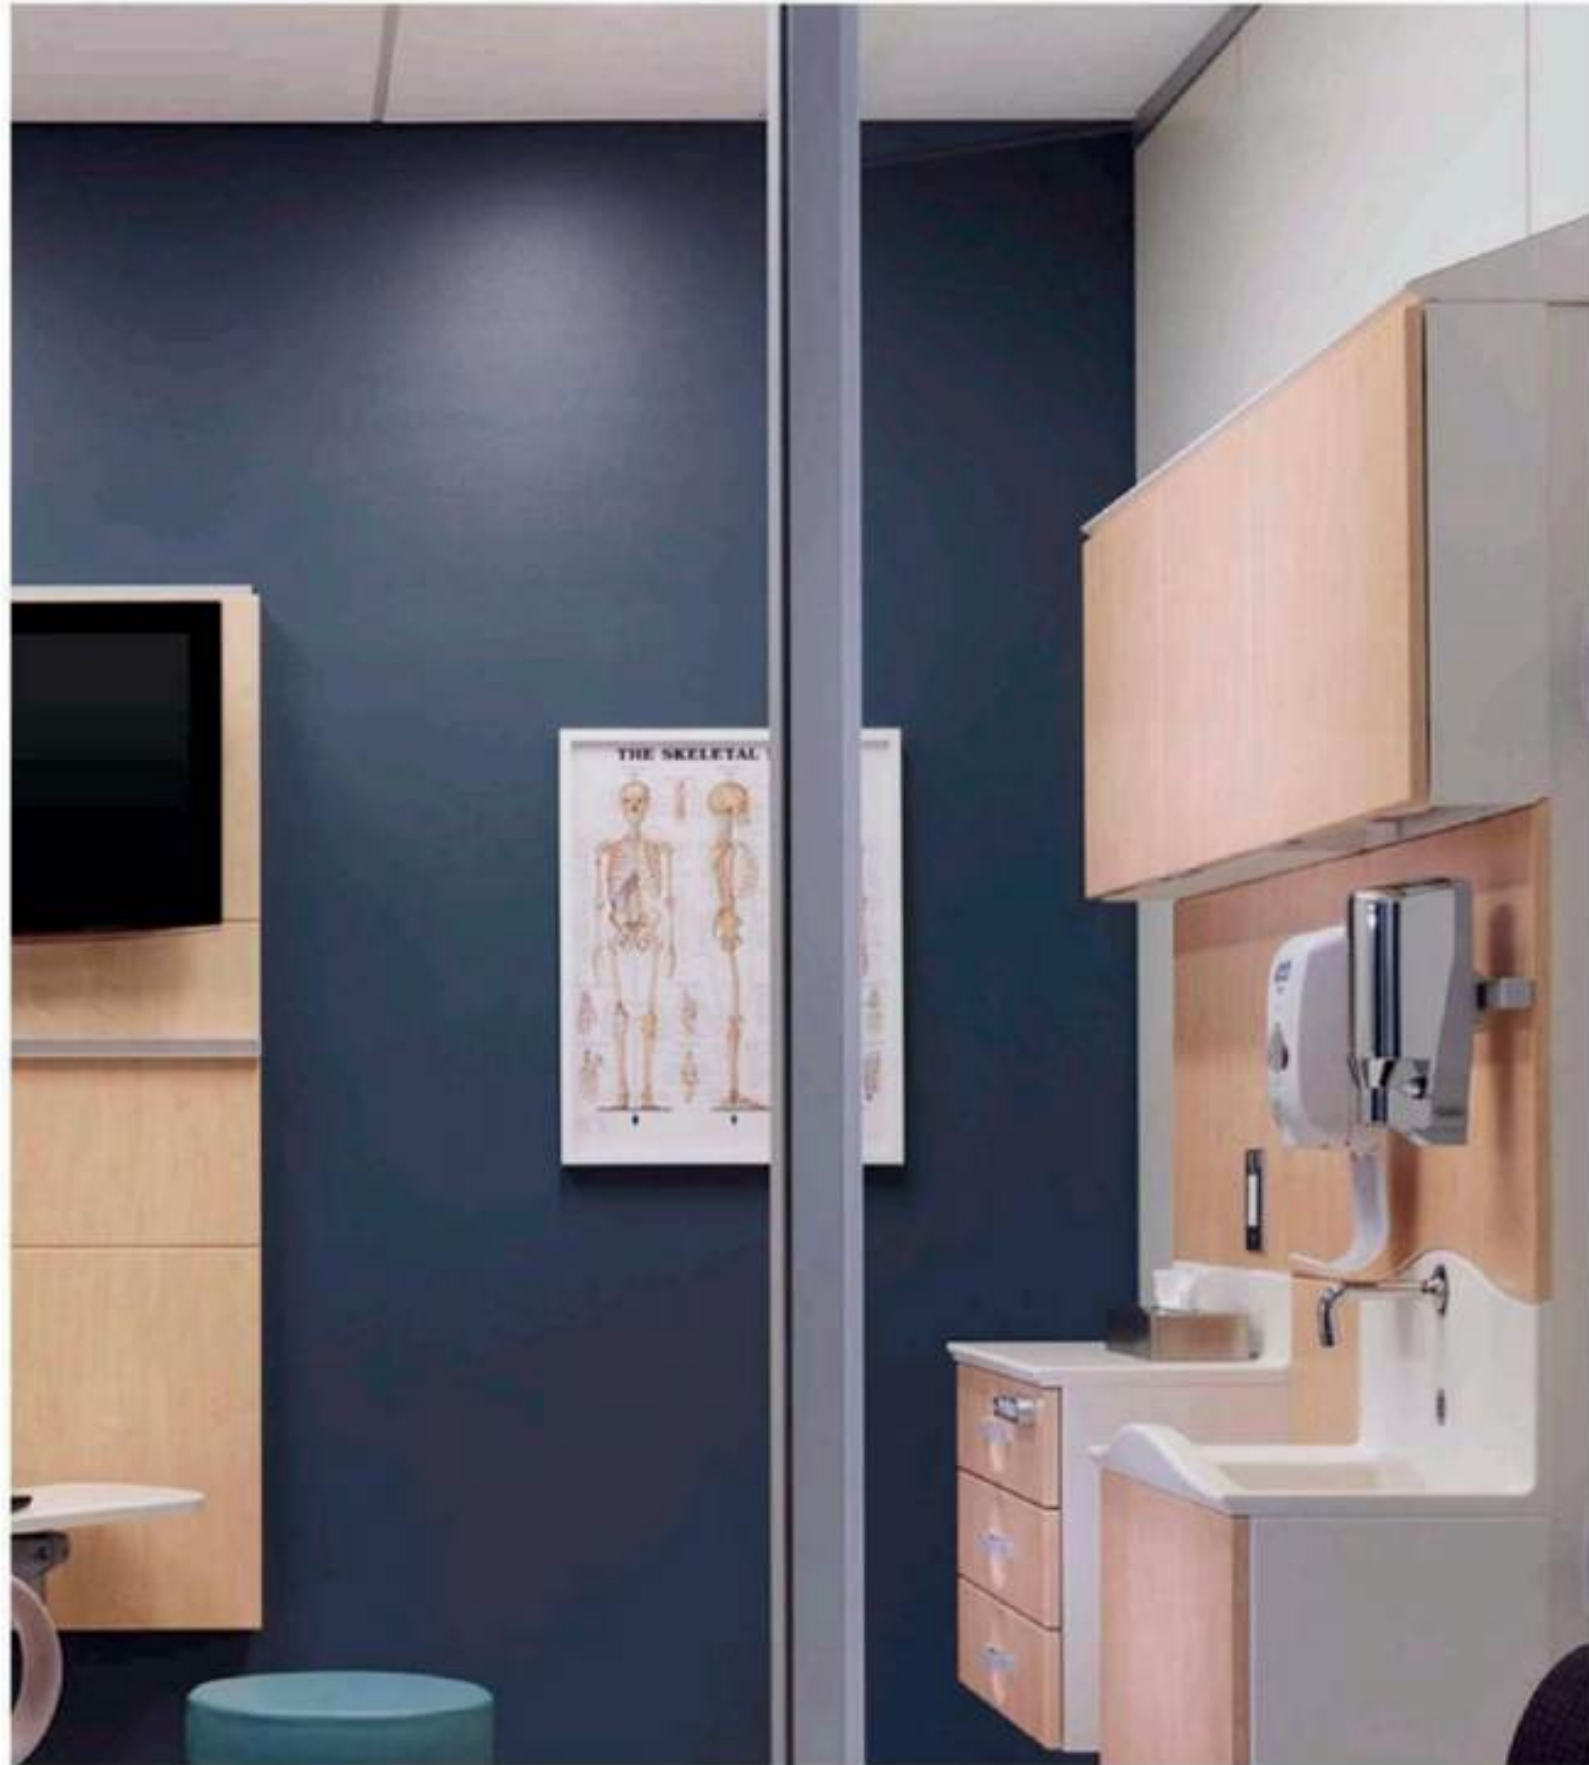

Lactation & Parent Care Room Cabinetry

Parent and infant care rooms support feeding, pumping, changing, and short rest periods for families. Cabinetry should provide organized storage for supplies, easy-to-clean surfaces, rounded details where appropriate, and a calm, welcoming appearance for medical clinics, hospitals, wellness centres, and family-focused healthcare environments.

Treatment Room

Create a clean, well-organized preparation area that supports efficient clinical workflow, supply access, and durable daily use in treatment rooms.

Treatment Room Cabinets

The injection carts are designed for treatment room workflows. Storage positions can be configured around medication preparation, supply access, waste separation, and efficient staff movement within the clinical workspace.

Clinical Workstation Trolleys

Multifunctional clinical trolleys support digital workflows by combining mobile storage, computer access, and bedside documentation in one durable workstation.

As Canadian healthcare teams adopt electronic medical records (EMR), mobile workstations help staff review, enter, and update patient information at the point of care. These trolleys provide dedicated space for a computer or tablet, organized supply storage, and easy mobility for clinics, hospitals, long-term care, and ambulatory care environments.
